

AI Prompt Assessment Activity Sheet to Learn, Unlearn, and Relearn About Autoethnography

ACTIVITY 1: AI Prompt Assessment

WHAT TO DO: Based on our exploration of various kinds of prompts for AI on Github (n.d.), choose one of the guided questions in Section 1 and respond to questions in Section 2.

Section 1

Design a brief but complete prompt that speaks to genre conventions or Autoethnographic research methods.

or

You could also design a prompt confirming your understanding of Autoethnographic-based research.

Section 2

1. Did AI respond to your query effectively or close to what you were looking? Respond to this question using 1-2 specific examples.

2. On a scale of 1-5 (5 being the highest), were you satisfied with the AI-generated response? If yes, respond to this question using 1-2 specific examples. If no, how would you change your prompt? Rating is necessary in any case.

3. interesting/intriguing/compelling or perhaps not? Explain why.

4. Was AI-generated output aligned or misaligned from the readings we covered learning about Autoethnography? Can you narrate it using specific examples?

5. Based on AI-generated output, reflect on Autoethnography as a writing genre. What does this AI-generated output for Autoethnography as a method? Think of one substantive final comment.
